### **HemCon Ranked Twelfth on Portland Business Journal's List of Top Bioscience and Medical Technology Companies**

**PORTLAND, Ore. – Dec. 17, 2007** – HemCon Medical Technologies Inc., a leading provider of hemostatic bandages, today announced its rank as number 12 on the *Portland Business Journal's* list of Top 25 Bioscience and Medical Technology Companies. HemCon was previously ranked 13th on the list's 2006 edition.

"We're proud to be one of Portland's largest medical technology companies," said John W. Morgan, HemCon president and CEO. "We look forward to continued growth as we work to expand the use of our life-saving technology to new markets."

Ranked by number of employees, the list highlights the largest bioscience and medical technology companies in the Portland area. HemCon currently has 107 employees and has seen its revenue grow more than 1,000 percent in the last three years.

In 2007, HemCon was named to Deloitte's 2007 Technology Fast 500 list and recognized by *Inc.* magazine as one of America's fastest-growing companies.

**About HemCon Medical Technologies Inc.**

HemCon Medical Technologies Inc., founded in 2001, develops, manufactures and markets innovative technologies to control bleeding and infection resulting from trauma or surgery. HemCon products are designed for use by military and civilian first responders as well as medical professionals in hospital, dental and clinical settings where rapid control of bleeding is of critical importance. The HemCon<sup>®</sup> Bandage was developed in collaboration with the Oregon Medical Laser Center and Providence St. Vincent's Hospital. HemCon's manufacturing and corporate headquarters are located in Portland, Ore.
